<b>Do you believe this practicum student has the knowledge, skills, and attitude required to become an effective student teacher?</b>	Yes
<b>General Comments:</b>	Allison demonstrated a strong grasp on the instructional knowledge needed to teach a variety of basic math content. The rapport with the student was evident as the student was willing to work on challenging materials and even present personal challenges. Feedback and redirection were appropriate. As the lesson progressed, more immediate feedback became evident along with more instances of encouragement as they progressed which also coincided with a more comfortable approach more suited to student learning. Overall, I believe Allison has the skills and disposition to be a strong student teacher.
